Lavender Bath & Body Care Collection

THE LEGEND OF LAVENDER

The name Lavender comes from the Latin word “lavare” meaning to wash, and its oil has been revered since ancient Egyptian times. Its wonderful aromatherapy properties help to relax and refresh the body, lift the spirits and relieve tired muscles. Our English lavender is gently soothing and has a softer scent than its French cousin. Organically grown in Hampshire, England, it is weeded by hand and expertly distilled by a family firm with over 30 years experience growing and distilling herbs.
